NORBERT KROL

JUNIOR AI/ML DEVELOPER | AWS CERTIFIED AI PRACTITIONER

Godalming (GU7) • Settled Status • Mobile: 07510 713712 • Email: norbikrol@protonmail.com
• LinkedIn • GitHub • Website

KEY SKILLS:

- Python Programming
- Natural Language Processing
- Feature Engineering
- AI Application Deployment
- Technical Documentation
- Machine Learning
- Computer Vision
- Model Training & Evaluation
- Git & Version Control
- Planning & Prioritisation
- Deep Learning
- Data Preprocessing
- API Development
- Testing & Debugging
- Teamwork & Communication

PERSONAL STATEMENT:

Aspiring AI/ML Developer with several years of self-taught programming experience who has recently completed an AI Technician Traineeship and gained AWS Certified AI Practitioner certification. Practical project experience includes developing and deploying NLP text summarisation and computer vision recommendation applications, applying Python, data preprocessing, model training, evaluation and API development. Brings additional knowledge of JavaScript, Vue.js and SQL, alongside communication, organisation and teamwork skills developed through customer-facing employment.

TRAINEESHIP:

Sept 2025 – Sept 2026 **IT Career Switch**
AI Technician Traineeship

- **Machine Learning & Data Preparation**: Designed, trained and evaluated machine learning models, applying data cleaning, preprocessing, feature engineering and model optimisation to practical business problems.
- **Deep Learning & Computer Vision**: Developed models using CNNs and RNNs, applying image preprocessing and feature extraction to image recognition, pattern analysis and predictive modelling.
- **Natural Language Processing (NLP)**: Built solutions to process, analyse and summarise unstructured text using text preprocessing, language modelling and transformer-based techniques.
- **AI Application Development & Deployment**: Built and deployed AI applications, integrating machine learning models through APIs within cloud-based environments.
- **AWS & Responsible AI**: Developed foundational knowledge of AWS AI services, generative AI and foundation model applications, including responsible AI, security, compliance and governance principles.
- **Software Development Practices**: Applied version control, debugging, testing and technical documentation across AI projects to resolve issues and communicate technical concepts clearly.

Certification Gained: AWS Certified AI Practitioner

PROJECTS:

Portfolio Project #1 Natural Language Processing Project (Radiology Report Text Summarisation): Developed and deployed an AI-powered Natural Language Processing (NLP) application to generate concise summaries from free-text radiology reports. Applied data preprocessing, model training, evaluation, and API deployment techniques to deliver an end-to-end AI solution suitable for real-world use.
Key Skills Applied: *Natural Language Processing (NLP)* | *Data Preprocessing* | *Machine Learning* | *Model Evaluation* | *API Development* | *AI Deployment*

Portfolio Project #2 Computer Vision Project (Image-Based Fashion Recommendation System): Developed and deployed a computer vision application capable of recommending visually similar clothing items from user-uploaded images. Applied image preprocessing, feature extraction, deep learning, and model deployment techniques to deliver a fully functional AI recommendation system.
Key Skills Applied: *Computer Vision* | *Deep Learning* | *Image Processing* | *Feature Extraction* | *Model Deployment* | *AI Application Development*

CAREER HISTORY:

Apr 2018 – Present **Royal Mail Group**
POSITION HELD: **Postal Worker**

- **Planning & Prioritisation**: Planned daily delivery routes and organised personal workloads to meet delivery deadlines and service level agreements.
- **Accuracy & Quality Control**: Sorted large volumes of mail accurately, ensuring items were correctly allocated for secure and timely delivery.
- **Teamwork & Independent Working**: Collaborated with a large team to process daily workloads and worked independently to complete deliveries within the local community.
- **Customer Communication**: Communicated with customers during deliveries, providing a professional service across a diverse local community.
- **Adaptability & Problem Solving**: Adjusted daily plans to accommodate changing workloads while maintaining accuracy in a fast-paced environment.
- **Compliance & Safety**: Followed company procedures, Ofcom requirements and health and safety practices when handling mail and working around machinery, equipment and vehicles.

Nov 2017 – Apr 2018 **Wayside Pub**
POSITION HELD: **Kitchen Porter**

- **Organisation & Efficiency**: Maintained a clean and organised kitchen, washing and sanitising crockery, cutlery and cooking equipment during busy service periods.
- **Teamwork & Operational Support**: Supported chefs and front-of-house staff with food preparation, stock deliveries and waste disposal to maintain kitchen workflow.
- **Hygiene & Safety Compliance**: Followed cleaning and sanitation procedures to maintain a safe working environment and meet food hygiene standards.

Nov 2016 – Nov 2017 **Surrey Homewares**
POSITION HELD: **Supervisor**

- **Task Planning & Coordination**: Planned and delegated daily team tasks, monitoring workloads and progress to support efficient retail operations.
- **Customer Communication**: Led the team in handling customer telephone calls and responding promptly to email enquiries.
- **Customer Service**: Assisted customers in a busy retail environment, maintaining high service standards across daily interactions.
- **Cash & Stock Accuracy**: Handled cash, prepared till floats, completed banking and carried out regular stock counts.

EDUCATION:

Technical College, Sosnowiec, Poland
Three A-Levels (Equivalent)

TECHNICAL SKILLS:

- **Programming Languages**: Python, JavaScript, R, PHP
- **Machine Learning & AI**: Machine Learning, Deep Learning, CNNs, RNNs, Natural Language Processing (NLP), Computer Vision

- **Frameworks & Libraries**: TensorFlow, Keras, NumPy, pandas, FastAPI, Flask, Streamlit
- **Data Preparation & Evaluation**: Data Cleaning, Preprocessing, Feature Engineering, Model Evaluation
- **Cloud & AI Fundamentals**: AWS AI Services, Generative AI Concepts, Responsible AI, AI Security and Governance Principles
- **Application Deployment & APIs**: Docker, Hugging Face Spaces, Render, PythonAnywhere, REST APIs
- **Web Technologies & Databases**: HTML, CSS, Vue.js, SQL
- **Version Control**: Git, GitHub
